DOMINION DAY!

How it was Spent in the Royal Town.

Early on Monday morning, the day the
celebration was held, the crowds began to
arrive from the country, and from all
quarters they could be seen coming in
buggies, buckboards, carts, waggon and
numbers on horseback, some of them
coming as much as fifty miles to swell
the crowd and celebrate the twenty-seventh
anniversary of our fair Dominion. Flags
were flying in all quarters, while rigs and
horses were dashing here and there in all
directions, giving our little town quite a
gay appearance. A busy day was in store
for the who had charge of the different
events of the day, but as the day wore on
it was plain to be seen the various com-
mittees had done their duty thoroughly, as
from first to last everything went off
smoothly and without hitch or hurry, nor
was there the usual amount of weary wait-
ing between events as frequently happens in
events of this kind. The committee of
'94 are to be congratulated on this score,
particularly the chairman and secretary
who performed their arduous duties well.

BASEBALL.

About ten o'clock in the morning
the ball was opened with a baseball
match between the boys from Collection
and the boys of the town. It was soon
apparent that the town players were badly
in need of practice, while the Collection
ball tossers were in exceedingly good form.

The players and scores were:-

CRICKET.

The next event was a cricket match be-
tween the N. W. M. Police club and the
Prince Albert club. Here again it was a
case of no practice for the town club, while
the Police boys had evidently made good
use of their time in that direction and
played a very good game. The town club
were also unfortunate in having some of
their best and oldest players absent, but
those who did play gave their best and
made a very good showing, considering the
difficulties under which they labored.

The game stood:-

THE DRIVING PARK.

By 1:30 o'clock one of the largest if not
the largest, crowds gathered here yet had
assembled at the driving park to witness
and take part in the long list of games,
etc., which had been arranged for. The
crowd was in our opinion the largest we
have seen at a gathering of this kind in
Prince Albert. The order kept was cer-
tainly a credit to all concerned, there
being but one lone constable on duty the
whole day through, but "Pete" was equal
to the occasion. For future occasions,
however, we would suggest the roping in
of about 100 yards in front of the Judges'
stand, and the prohibiting of carriages
being driven around the track between
events, as the dust at times was something
more than the vast crowd present could
swallow. A dancing booth on the grounds
was a new feature, but evidently a success-
ful one, being well patronized all day.

The events and winners were as follows:-
100 yards dash - 1st, W. McKay, 15.2nd,
Albert McKay, 15.3.

Foot race - 1st, Albert McKay, 15.2nd,
J. Stewart, 15.3. 3rd, F. Driver,
2nd, H. Locks.

Running hop, step and leap - 1st, Fred
McFallen, 100 yards, by T. Oram; 2nd,
W. McKay, 12.

Putting stone - 1st, J. McKay, 33; 2nd,
D. D. McLeod, 32.

One mile foot race - 1st, A. McKay; 2nd,
R. Ballandine.

Boys' race - 1st, R. Robertson, 13; 2nd,
F. Settle, 13.50.

Ladies' foot race - 1st, Minnie McBeath,
15; 2nd, S. Squaw, 13.

Squaw race - 1st, Julia Tait, sick of
flu; 2nd, Mary Muey, groceries.

Elephant race - 1st, G. Biggs, and H.
Oram, 13; 2nd, J. Biddome and L. Kirk-
ness, 12.

Climbing greasy pole - G. Biggar, 13.

BICYCLE RACES.

The bicycle races, which are something
new here, were watched with great
interest by those present. The entries,
however, were not so good as could have
been wished, considering the number of
wheels owned in the town.

The half mile race for a silver medal
presented by W. R. Fish, value of \$15, was
easily won by Stronach, Wigmore's wheel
meeting with an accident.

The next race was one mile, prize
silver medal presented by Mr. Justice
McGuire, three entries. Stronach was
again an easy winner.

W. T. Gilmore & Co.

AT
J. M. Campbell's Old Stand

For the five mile race there were three
entries, R. W. Way, R. Stronach and A. G.
Way. The first prize was a silver medal
presented by Way & Legram, and the
second a fishing rod given by T. J. Agnew.
In this race Stronach was handicapped,
having to give eleven laps to his opponents
ten, which proved too big an undertaking
for Dick. Way senior dropped out early
in the race, but Arthur stuck like a leech
to his man, and on the tenth round passed
Stronach, coming in a few yards in ad-
vance and winning first place, amidst the
plaudits of the spectators, Stronach
taking second.

THE HORSE RACES.

The horse races were keen and good,
each event being finished in a bunch,
with each rider doing his utmost to win.
The first was a

Quarter mile pony race in heats - 1st,
W. Smith, 10; 2nd, Sandy Thomas, 9.
Half mile race, open, in heats - 1st,
Sandy Thomas, 15; 2nd, D. Venne, 13.

Half mile dash for colts, 3 years and
under - 1st, Dalry, 8; 2nd, Oram, 15.

Extra mile heat, open to all, six entries,
won by D. Venne.

Mile trotting race, heats, three entries
- 1st prize was taken by G. J. Reid's
Forest Girl, 25; 2nd, W. White's Grey
Neil, 15.

The day's sports were brought to a
close by a tug of war between teams of ten
men each from the country and town for
a prize of \$10, which after a hard pull,
was won by the country representatives.

The judges for the day were Messrs. R.
H. Mair, R. Pritchard, D. J. Waggoner
and Mr. Justice McGuire. Their rulings
gave general satisfaction. Mr. G. K.
Russell acted as starter.

By 12 p.m. the majority of the out-
siders had wended their way homewards
and the town was again resting in peace
and quietness.

"YE ANTIENT WISDOM"

The lecture given by Dr. Jardine in the
Town Hall on Tuesday evening last in aid
of the Mechanics and Literary Institute
was in every sense of the word a success,
and those who missed hearing it did most
certainly lose a rich intellectual treat.

The subject of the lecture, "Ye Anti-
ent Wisdom," was handled in an able and
scholarly manner, showing that the learned
doctor was thoroughly conversant with
his subject, and in his happy style of
delivering the same he did not fail to
arrest the attention of his audience. The
learned gentleman began by inviting his
hearers to an imaginary excursion through
successive stages of 500 years backward, to
the chariot of Old Father Time, up to
the era of 500 years before the birth of
Jesus Christ. To us of the present day
that date looks very distant and we are
apt to think that the world was then
young and civilization in its infancy.

But the learned doctor soon showed that
even then the world was considered old
and civilization was then accounted as
very ancient. That wonderful structure
and monument of architectural skill, the
Great Pyramid of Ghizeh in Egypt was
then then considered old, as well as the
ancient temples of Thebes and Karnak,
where priests taught the worship of Osiris
Isis and Anubis. Long previous to that
period the magnificent temple at Jerusalem
had been built, and after a period of 500
years destroyed, the most of the people
carried captive to Babylon, and the city
itself destroyed. At that period Alexan-
der the Great had not yet laid the founda-
tion of the Grecian empire; as the valley
of the Euphrates was then the great
centre of the world and the Persian
Emperors were then the mighty potentates
who bore sway.

The lecturer went on to
show that the Brahmins extended their
intellectual sway over the eastern world
and how that the prophets of the Jews,
the wise men of India, Greece, Egypt and
Persia were at different times the centres of
ancient wisdom. The difference between
ancient and modern wisdom was forcibly
set forth, showing that the ancients com-
menced with the divine principle within
us and around us and worked towards
material subjects, while the teaching of
the present day, retired that order and
beginning outwardly with things corporeal
and working inwardly towards the divine
which in many instances was never attained.

The ancient wisdom comprehended in
astronomy was also touched upon and
the beautiful symbolism indicated by the
formations of the several constellations
was explained in a lucid manner, showing
that the learned doctor had been a cor-
respondent student of the Babylonian and Stellar
observations as well as the Hebrew Mas-
sarah. It was also set forth that there
is a divinity within us which lifts us
to rise above the thrall of the brute creation
and seek for a higher destiny than that
which we now occupy. As the soul man
rises from the divine so it must seek to rise
thither again. Consequently the birth of
the human child is the alienation of the
spirit from the divine and it, may I say,
the death of the soul, or tomb of the
spirit while on the other hand the death
we so much dread is the release of the
spirit or resurrection of the soul enabling it
to ascend to the divine from whence it
sprang.

The chair was ably filled by the Hon.
Judge McGuire and at the close of the
lecture a vote of thanks was unanimously
given to the lecturer for his able discourses.

Finally it may be said that the departure
of Dr. Jardine from our midst is a great
loss to our little community, and while
wishing him success in his future career
we cannot help regretting his absence
from us.

PRINCE ALBERT, JULY 6, 1914

TOWN PARK.

Although Prince Albert is one of
the oldest towns in the Territories, it
is still behind others in matters of
progress. The people are energetic
and pushing and the stability of the
town buildings and other public im-
provements go to show. The celebra-
tion of Dominion Day showed most
conclusively the necessity for a public
park to hold sports, etc. Arrangements
might be made with some of the large
property owners for a town park.
Land will never be purchased cheap-
er than now. Let the Town Council take
steps for the purchase of five acres at
least. It could be used for agricul-
tural exhibitions, celebrations and be-
sides the town would have a nice
driving park. Nothing in our town
is more needed, and it is to be hoped
the town fathers will take the mat-
ter into consideration.

Assuredly the campaign which ended
on Tuesday in Ontario has been on-
erous and often mean. One of the
candidates for East Lambton, Mr.
P.D. McCallum, has actually thought
it worth while to have an affidavit
made to disprove the connection brought
against him on nomination day that of
two different occasions he had played
poker. This American national game
like many another amusement harm-
less in itself, is doubtless often pro-
stituted to the purposes of gambling, but
it is surely the climax of absurdity to
seriously make it a ground of fitness
for public position that a candidate
understand and on some occasion he
played a game of poker. If this were
to be rightly faced, we fear many
of the most capable and most
honorable of our public men would be
excluded from the service of the state.

The strike against the Pullman cars
ordered by the United States Train-
ing commission is one the public will
have little patience with. Railroad
travelers will be put to incon-
veniences, not because the roads they
use have any quarrel with their em-
ployees, but because certain of the
trainmen sympathize with the strikers
in the manufacturing shops of the
Pullman company, and are willing to
put their own employers to loss and
the public to an annoyance in the hope of
hurting a concern they regard as a
common enemy. It is this kind of
a so-called strike that creates a prejudice
against strikes and strikers, and even-
tually shows that public sympathy is an
assistance to whatever side it espouses
in a labor quarrel. The public can
only hope that the fight will not
last long, and remember that while it
does last, while a Pullman car is an
adjunct to it is not a necessity to con-
siderable travelling.

The Manitoba School case is ab-
solutely the last gun shot of the con-
troversy to appear from the recent decision
of the Supreme court of Canada
touching the divided powers of the
Federal Government, having been
given by the Judicial committee of
the Privy Council. The present phase
of the question does not relate in any
way to the constitutional rights of the
Manitoba statutes abolishing separate
schools. That branch of the subject
after having been pronounced upon
by three courts in Canada, was finally
disposed of by the decision of the
Judicial committee in Great Britain
maintaining the legality of the provin-
cial enactments. The Roman Catholic
minority, petitioned however not only
for the dissolution of the Manitoba
School law, but also for remedial
action by the Governor General in
Council, and, if necessary, by the
Parliament of Canada.

The United States Senate has gone
to the income tax clause of the tariff bill,
and Mr. Hill has spoken against it
thus beginning what will be the final
struggle of the present phase of the
situation. This prospect is that
despite the opposition of some Demo-
crats, the income tax will be accepted
after a not very protracted talk. The
income tax is an unwarlike memory and
is attacked as un-American, British,
and the levying of a war tax in time

of well off and the rich, however,
and the mass looks with much indiffer-
ence if not approval on anything that
reaches such pockets for public pur-
poses, whether it is exactly just or not.
And it is the voice of the mass the
majority are looking for.

Despite the somewhat unfavorable
conditions that have prevailed, the
crop reports from Ontario and Quebec
are from Manitoba and the Northwest
give promise of a fair average yield.
With Quebec, perhaps, having a slight
advance over her nearest neighbor.
This is all that can be looked for in
this season, which is to say to build
up a definite calculation as to the final
outcome. July's weather has a great
deal to do with the harvest, and met
making a poor promise a good reaping
and sometimes reversing the process.
It is always an advantage, though, to
see every thing in good shape when
July opens.

Sixty thousand Scotch coal miners
have gone on strike, and will throw
all many other men, especially in the
iron and steel trades. As Scotchmen
have a reputation for stubbornness,
the chances will be regarded as point-
ing to a long struggle. The northern
kingdom is apparently in for another
troubling contest as England experi-
enced last summer, and the United
States this spring. There are so many
industries dependent on coal that the
cutting off of the supply is to trade as
the breaking of a main spring to a
watch.

The German Emperor in his latest
speech at Kiel dwelt on the battles of
the past where British and Prussian
ranks had been united against those of
the common enemy. It would not
look from this that M. Hanau could
get much sympathy from Ger-
many in his efforts to frustrate Eng-
land's latest African scheme of terri-
torial extension. M. Hanau is the
present day representative of the pas-
sage's common enemy.

The U.S. Senate has put a duty of
three cents a dozen on eggs in the tariff
bill. The Canadian hen did not get
out of business when M. Kiley put
five cents a dozen on his products of
his industry, and it will not be likely
to face an impost of three cents.
But it will have its opinion of the food
that proverbially runs the roast in the
farm yard over the rooster.

According to the interview given
by Mr. Wiman to the Dominion morn-
ing has in its service a hundred
hundred agents who receive no thing
for their work. According to Mr.
Wiman also, the agency makes \$500,
000 a year. If, after this, the agents
do not insist on getting some of the
butter from the cream they churn the
fact will hardly be Mr. Wiman's.

The French mobs in their antipathy
to Anarchism are showing a good deal
of the Anarchist spirit. To maltreat
Italian workmen and destroy the
property of Italian residents of French
cities is in the same line with the dis-
struction of life that Santos succeeded
in effecting. A mob is not a thinking
entity.

When the birth of the boy baby of
the Duke and Duchess of York was
announced in London on Saturday
night the gatherings cheered. English
men evidently continue to think well
of the royal line, and like to see it
large ones. So much to be.

Miss Frances E. Willard, LL.D., is
now the proper way to write a dis-
tinguished reformer's name. The
Western University of Ohio did it,
and it looks very well.

The Ontario Government's plans but
it is no quite so likely as it was.

CONCERT.

The concert held in the Presbyterian
church, Wilfrid, on Friday evening,
June 26th, was a brilliant success. The
chairs were filled by Rev. Mr. Rob-
ert, who brought down the house by his
rendering of, assisted by Mrs. Roberts,
"A Voice of the South." Mr. Baker,
of Prince Albert, who is an orchestra man
and, entertained the large audience
several well rendered selections of instru-
mental music. Mr. Paul's vocal solo
was listened to with great interest and
brought down the house. The concert
is a credit to his country, and de-
serves credit for the rendering of a song,
in which five different characters were com-
bined. We must not forget Mr. Wilson,
who sang with his S. song, "The
Singing of the South." Mr. Wilson is a
perfect entertainment in himself. M.
McDonald's vocal solo was what
might be expected from a native of the same
place, or rather a descendant. The children
sang themselves ably. The songs were
well represented by four
little girls. The little Misses Lavi,
Glass, and Shukles. Wilfrid may well
be proud of its local talent. But we
must not forget Miss McQueen's solo,
which was rendered in a manner showing
the lady's talent for vocal music. Mrs. Rob-
ert's song delighted all who were there.

which we know that we can say little more
is already a favorite with old and young.
Capt. Craig of Winnipeg was called on to
respond by a few well chosen remarks.
After a very pleasant evening, in which
every person present thoroughly enjoyed
themselves, the meeting closed by the
hearty singing of the national anthem by
the entire audience.

NEWS OF THE WORLD

Hayday week in New Brunswick.
An attempt was made to blow up the Montreal Witness office.

The Patron Candidate who carried Halliday in Tuesday's election cannot qualify to A Quebec editor has recovered \$200 damages from an editor who called him a "Methodist".

Two youthful murderers of St. Paul, Minn., were sentenced to be hanged.
Exports of wheat from this continent to Europe last week amounted to 1,717,000 bushels.

A man, who was shadowing Premier Crisp with murderous intent, has been arrested.

Shaw, who murdered President Carnot, attended a meeting of anarchists in Chicago, last October.

The U. S. tariff bill has passed the committee stage in the senate. All commercial reciprocity inconsistent with the provisions of the bill are abrogated.

Questions were asked and partially answered in the British house of commons as to the strength and loyalty of several British colonies, including Canada.

R. G. Dunn & Co. report about 950 failures in the U. S. in June and for the half year about 7,100. Canada's failures for six months were 1,032. This week the failures were 214 in the U. S. and 35 in Canada. Bankruptcy reports only 957 business failures in Canada for the past six months.

Two people were killed by lightning near Kingston.

Two young lovers committed suicide in London, Ont.

The outlaw who robbed the Cariboo stage has been captured.

London Liberals held a convention to prepare for the federal elections.

The trial of the C. W. A. annual meet were held on Saturday at Montreal.

Refugee trade was discussed on Saturday at the Colonial conference in Ottawa.

The North Central school battalion, Winnipeg, won the lieutenant-governor's banner at the annual drill.

Her Most writes violently on the French constitution.

London's new tower bridge was opened by the Prince of Wales.

Prominent Italian have received threatening letters from Anarchists.

Delegations from Hawaii and Great Britain.

Queen Victoria has forwarded an autograph letter of sympathy to Madame Carnot.

The Pullman boycott has spread to twenty railroads, and the sale of a dozen cars is blocked.

The late President Carnot was buried Sunday in Paris. The funeral was the most imposing ever seen in France.

At London, Ont., Henry Herbert Thompson, a young Scotchman, representing himself as a partner with his father in the steamship line, headquarters at Glasgow, went out on the Thames Sunday morning in a canoe, and committed suicide. His fiancée, a handsome and accomplished young woman of this city, Bella Mackenzie, heard of his death shortly afterwards and swallowed three ounces of hydrocyanic acid and died immediately.

Blanky, the man who with gunnysack mask, is his black hen, has been decreasing passengers by Cariboo stage and holding the express, has been captured by the never failing provincial bloodhounds of law, having been run down at Alkali lake and safely lodged in Kenilworth jail. Blanky, twice within a week held up the Cariboo stage and compellingly driver to empty the valuables, including the express chest, in the middle of the road.

Frank McGregor, aged 26, while playing on a raft with companions at the foot of Campbell street, Toronto, Saturday night, was killed and was drowned. The body was recovered. This is the fourth drowning of the week in the bay.

Martin Girouard, one of the last surviving veterans of the war of 1812, died at St. Mary's, Kent Co., N.B., Saturday night, at the age of 100 years.

WILLOUGHBY

Report of school for month of June:—Fourth Class—Maggie McIver, Ruth Shields.

Third Class—Annie Shields, Bella Loring, Lizzy Glan, Norman McIver, Kate McIver.

Second Class—Angus Campbell, Agnes McIver, Rose Glan, Mary McIver, Maggie Campbell.

First Class—Dan McIver, Charlie Long.

The attendance for this school has been good during the past month.

Rev. Canon Fleet inspected the school during the month.

Said to us we are the Inspector, but what he does come we are pleased to have him, as it is a pleasure to get new ideas in the kindergarten routine of teaching.

There has been a little of excitement among the young people for some time over the preparation for the entertainment.

The farmers of this district are anticipating a bountiful harvest, as the prospects are brilliant.

Strawberries are the popular fruit just now, and the catch where they grow is very much patronized.

A very quiet wedding took place in Prince Albert, which resulted in one of our young bachelors going a mate to show and brighten his lonely hall. We extend our congratulations, and hope that others may profit by his example, and go and do likewise, as it is not good for man to be alone.

No Derby Plug Smoking Tobacco is Genuine Unless It Bears The Derby Cap Shaped Tag.

SASKATOON.

A large turn out of farmers assembled in the school house here on Wednesday the 27th June, to listen to an address by Mr. McKay, of the N.W.T. Experimental Farm. The president of the Agricultural Society occupied the chair and introduced Mr. McKay, who warmly congratulated the audience on the fact that Saskatchewan has the best crops of all kinds he had "seen anywhere this year, and the largest stretch clear of weeds" that is "a greater proportion of good and clean crop than in any other part of the country" he had seen so far. He then went into an account of farm experiments and strongly recommended summer fallowing, plowing the fallow as soon as possible after seeding time and then keeping it clean with the harrows. He also described the grasses and fodder crops which were most successful, and detailed experiments in feeding cattle and pigs. Tree planting (of native kinds) was also recommended for shelter and wind breaks. A hearty vote of thanks was tendered the lecturer.

Wild strawberries are more plentiful than ever before, and other fruits promise to be abundant, some of them remarkably so. A movement is on foot to establish a creamery here, and promise of support has been tendered by the farmers in all directions. It is expected that, if the scheme is successfully carried out, from three to four hundred cows will be forthcoming. Such an undertaking is just what is wanted, as almost all the settlers have cows and a surplus of milk. Some have quite large herds, and a creamery properly conducted would make a market for the dairy products and not hurt the wheat growing industry one whit.

Mr. Charles Irwin, with his two young children lament the loss of the wife and mother. Mrs. Irwin was quite a young woman and much sympathy is felt for the family in this sad bereavement.

The Manitoba Free Press in speaking of the Cambridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright pianos is thrown into the shade. The Cambridge Piano has a continuous back rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Cambridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a few Oct. Organs in Paris case which is having a wonderful sale. The Pianos made by the Cambridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

The Spring Medicine.
"All run down" from the weakening effects of warm weather, you need a good tonic and liver purifier like Hood's Sarsaparilla. Do not put off taking it. Numerous little ailments, if neglected will soon break up the system. Take Hood's Sarsaparilla now, to expel disease and give you strength and appetite.

Hood's Pills are the best family cathartic and liver medicine. Harmless, reliable, sure.

REMEMBER CURE IS A DAY.—South American Rheumatic Cure, for Rheumatism and Neuritis, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by J.G. White & Co.

THEY WANT NAMES.

Frank S. Taggart & Co., 89 King Street West, Toronto, Ontario, desire the names and addresses of a few people in every town who are interested in works of art, and to secure them they offer to send FREE, "Cupid Guide—the Best," a superbly executed water color picture, size 10 x 12 inches, suitable for framing, and sixteen other pictures about same size, in colors, to anyone sending them at once the names and addresses of ten persons (admirers of the pictures) together with five hundred stamps to cover expense of mailing, etc. The regular price of these pictures is \$1.00, but they can all be secured free by any person forwarding the names and stamps promptly.

NOTE.—The editor of this paper has already received copies of above pictures and considers them really "Gems of Art."

A boon to horsemen.—One bottle of English Sperm Liniment completely removed a curb from my horse. I take pleasure in recommending the remedy, as it is with mysterious power in the removal from horses of hard, stiff or swollen joints, blood, perspiration, cuts, sores, etc., and sprains.

GEORGE ROBB, Farmer, Markham, Ont. Sold by J.G. White & Co.

Awarded highest honors—World's Fair.
